The basis used for the calculation of interest rate on loan is 10-year G-Sec rate as at the end of last financial year plus the absolute margin of 250 basis points rounded up to the nearest 50 basis points. The derived interest rate will be applicable in the succeeding financial year. Currently, the interest rate on loan for FY 2024-25 is 10.00% p.a. (simple). It is arrived by adding a margin of 250 basis points on the effective annual 10-year G-Sec and rounding up to the nearest 50 basis points (10.00% \sim 7.18% + 2.50%)...Any change in basis of calculation of loan interest rate is subject to prior approval from IRDAI.

On availing loan, this Policy will be assigned to us. We will reassign this Policy to you provided you have repaid the entire loan amount along with interest. We will recover any unpaid loan amount along with interest before paying the death benefit to the Nominee(s) / Appointee/ legal heir(s) or the maturity benefit to the Life Assured. As and when the loan principal along with interest exceeds the surrender value for Reduced paid-up policies, the policy will be compulsorily surrendered by us and the outstanding loan amount along with the interest will be recovered from the Surrender Value or Reduced paid-up benefit. Compulsory surrender will not

apply to in force policies. For in-force policies, if the outstanding loan along with interest exceeds 90% of the surrender value, company will send a notice to the policy holder to repay the loan partially or completely. The discount rate applicable for the quarter will be calculated on 5-year G-Sec bond yield (rounded to nearest 5 bps) as at beginning of the quarter. The same discount rate will be applicable to all the advance premiums being paid by the policyholder during that quarter. Any change in the said methodology for the calculation of discount on advance premium is subject to IRDAI approval. The discount rate will be calculated from advance premium paid date to premium payment due date (in complete months).

Note:

- A Reduced Paid-Up policy can be revived (to the original benefits) within five years from the date of first unpaid Premium subject to the conditions.

Note: The current interest rate charged for financial year 2024-25, for delay in premium payment, is simple interest of 10.50% per annum. The basis used for the calculation of interest rate on revival is 10-year G-Sec rate as at the end of last financial year plus the absolute margin of 300 basis points rounded up to the nearest 50 basis points. The derived interest rate will be applicable during the next financial year. Any change in basis of calculation of revival interest rate is subject to prior approval from IRDAI.
