PART C

<< Only one of the below sections, either for Lumpsum Benefit Option or Income Benefit Option shall be printed >>

< For Lumpsum Benefit Option >

1. Benefits under the policy

1.1 Death Benefit

On Death of the Life Assured during the policy term when the policy is in force or fully paid-up, the death benefit will be payable, and the policy will terminate.

Death Benefit is higher of Sum Assured on Death Or 105% of total premiums paid till date of death or Surrender Value as on date of death.

Where Sum Assured on Death is as mentioned in the Policy Schedule.

The death benefit will be paid either as lump sum amount or in monthly instalments over the period of 5 years as opted by the policyholder/nominee at any time during policy period / on death of Life Assured.

In case of instalment payment of death benefit, the instalment benefit amount will be calculated as dividing lump sum amount (say, S) by annuity factor (i.e. $a(n)(12)$) i.e. $S/a(n)(12)$ where n is the instalment period of 5 years and $a(n)$ is annuity factor for n years. The interest rate used to determine annuity factor is {5-year G-Sec rate less 2.00%, rounded down to the nearest 25 bps}, where the 5-year G-Sec is at the beginning of the financial year. The applicable interest rate for FY 26-27 is 4.75% p.a. (i.e. ~6.80% (5-year G-Sec rate) less 2.00%). The annuity factor defined above will not be changed once the instalment payment starts.

Life cover starts immediately for policy issued under minor life (Age at Entry less than 18 years). The policy will vest on life assured on attainment of majority i.e. 18 years.

For POSP-LI Channel, waiting period of first 90 days from the date of acceptance of risk shall be applicable. For deaths (other than accidental deaths) during the said waiting period, 100% of Premiums Paid shall be paid as Death Benefit. In case of accidental death, entire death benefit shall be payable.

1.2 Maturity benefit

Maturity benefit will be payable on survival up to the end of policy term provided the policy is in force and fully paid-up. Maturity benefit is the guaranteed sum assured at maturity, as mentioned in the Policy Schedule. In any case, the guaranteed sum assured at maturity shall not be less than the total premiums paid under this policy.

2. Life Cover Continuance Benefit

Your policy will have life cover continuance benefit if at least 2 full year's premiums has been paid.

Under this benefit, if you miss to pay premium for one policy year; full death benefit under the policy will continue as per the in-force policy for one year from the date of "First Unpaid Premium (FUP)" and no due premium at FUP date will be deducted from death benefit amount.

At the end of the life cover continuance period, the policyholder will have the following options to exercise.

- Pay all the due premiums with interest as applicable and revive the policy.
- Pay one due Annual premium with interest and extend the life cover continuance benefit period.
- Not pay due premium and hence continue the policy with reduced paid-up benefits.

In case the policyholder dies, the due premium before the date of occurrence of the death will be deducted from the death benefit.

3. Paid-Up benefits

Policy will acquire paid-up value after expiry of grace period from the date of first unpaid premium after completion of first policy year provided one full premium has been paid and subsequent due premium has not been paid.

3.1 Death Benefit under Paid up policy:

- o **Within one year from the date of first unpaid premium:**

Full Death benefit as per in-force policy as per terms and conditions mentioned in section 3 above

- o **If Death happens after One Year from the date of first unpaid premium:**

The death benefit would be higher of

1. Paid-up Sum Assured on death.
2. 105% of Total Premiums Paid (TPP) till the date of death.
Where paid-up Sum Assured on death is defined as Sum Assured on Death as on the date of policy being made paid-up * (Total numbers of premiums paid) / (Total Number of premiums payable over the policy term)

3. Surrender Value as on date of death

3.2 Maturity Benefit under the Paid-up policy:

The maturity benefit would be the Paid-up Sum Assured on maturity.

Where paid-up Sum Assured on maturity is defined as (Guaranteed Sum Assured on Maturity * (Total numbers of premiums paid) / (Total Number of premiums payable over the policy term))

3.3 A Paid-Up policy can be revived and reinstated (to the original benefits) within five years from the date of first unpaid Premium subject to the conditions mentioned under revival section.

3.4 If policy in Paid Up mode is not revived during the revival period, it will continue in the paid-up mode until maturity or death or surrender of the policy.

3.5 A Policy becomes fully paid-up provided all due premiums are paid during the term of the policy and the benefits payable will be as per the terms and conditions of the policy.

3.6 In any case the Paid-up Sum Assured on death or Paid-up Sum Assured on Maturity as mentioned above shall not be less than the total premiums paid under this policy.

4. Surrender Benefit

You may surrender this Policy during the Policy Term, by submitting a written request to us any time after the Policy has acquired the Surrender Value. Please remember, you cannot revive your Policy once it is surrendered.

The amount payable on surrender will be higher of Guaranteed Surrender Value (GSV) and Special Surrender Value (SSV).

The policy shall acquire a Guaranteed Surrender Value on payment of premium for at least two consecutive years. The Guaranteed Surrender Value (GSV) will be $GSV \text{ factor for premium} * \text{total premium paid}$, less sum of all monthly/paid-up monthly and annual/paid-up annual income benefits already paid, as applicable.

Special Surrender Value shall become payable after completion of first policy year provided one full year premium has been received.

The computation of EPV of reduced paid-up benefits is as follows:

SSV =

Paid-up Sum assured on maturity * SSV Factor1

plus

Paid-up Sum assured on death * SSV Factor2

For more details on guaranteed surrender value factors, please refer to Annexure I or visit our website, www.indiafirstlife.com or get in touch with your financial advisor. SSV1 and SSV2 factor will be determined by us as per the applicable regulations and will vary from time to time.

Policy will lapse after the expiry of the grace period from the date of first unpaid premium, if less than one (1) full year premium has been paid and any subsequent premium is not duly paid. If the policy lapses, all the benefits will cease after expiry of the grace period from the date of first unpaid premium.

Basis:

Interest Rate: 7.40% p.a.

Interest rate is derived using the following approach:

7.40% = 6.96% Plus spread of 44 bps

where 6.96% is the average of annualized 10 year G-Sec rate at every month end during FY24-25.

The applicable SSV shall be reviewed annually based on the prevailing yield on 10 Year G-Sec and the underlying experience.

5. Grace Period

You are provided a Grace Period of 15 days under monthly mode and 30 days for other premium payment modes, in case you miss your due premium on the due dates. In case of the Life Assured's death or occurrence of any covered event as per the benefit option chosen during the Grace Period, we will pay the benefit after deducting the unpaid due premiums till date of death or date of the covered event. During this period the policy will be considered to be in-force.

6. Discount on Advance Premium (Renewal)

Collection of renewal premium in advance shall be allowed within the same financial year for the premium due in that financial year. Provided, the premium due in one financial year may be collected in advance in earlier financial year for a maximum period of three months in advance of the due date of the premium. No discount will be offered if premium is paid within one month prior to premium due date. The discount rate applicable for the quarter will be calculated on 5-year G-Sec bond yield (rounded to nearest 5 bps) as at beginning of the quarter. The same discount rate will be applicable to all the advance premiums being paid by the policyholder during that quarter. Any change in the said methodology for the calculation of discount on advance premium is subject to the approval by the authority. The discount rate will be calculated from advance premium paid date to premium payment due date (in complete months).
