The Book of Important Things is a downloadable, editable & shareable document from Nominee Central by IndiaFirst Life.

It is a simple yet powerful reminder to consolidate, write and share essential information about your investments and insurance policies with your Nominee.

This thoughtfully designed book addresses a crucial reality: in many cases, nominees remain unaware of the policies & investments meant to safeguard their future. This silence can lead to missed claims and financial uncertainty for your loved ones.

By filling out this book with your investment and insurance details, you are creating a roadmap for your nominee; making it easier for them to access the benefits you've worked hard to secure for them over time. But this is just the first step.

Once you have recorded all your information, take a moment to sit down with your nominee and discuss these details. Explain how each policy or investment works, where to find the documents, and the steps they need to take if they ever need to make a claim.

This conversation is an act of love, ensuring that your legacy serves its purpose when it's needed the most.

We hope you find this book helpful in building your future with certainty.
