

Irda launches insurance services through CSCs

Insurance sale and services through a common service centre (CSC) was launched on Wednesday by T S Vijayan, chairman of Insurance Regulatory & Development Authority (Irda).

The CSC set-up under the National e-Governance Plan (NeGP) is envisioned to facilitate a platform for government, private and social sector organisations to integrate social and commercial goals and take the benefits of infor-

mation and communication tools (ICT) to the remotest corners of the country.

To encourage insurance penetration in rural areas, Irda had issued guidelines on utilising the CSC network in India in 2013.
