

Bringing change in society

Over 15,000 students in the age groups of 11 to 16 years from across 304 schools from the country sent in their ideas for the IndiaFirst's Happy India campaign. A jury has selected 25 final ideas to be executed by the teams. IndiaFirst is helping execute

these projects over a period of 40 days with a grant of ₹50,000 each and with some industry stalwarts mentoring them. Top 25 teams, which have been shortlisted from pan India under this initiative came today on a single platform to showcase their ideas, which can bring

change in the society. Team champs from Sankriti The School, Hyderabad, demonstrated the usage of Solar energy as the alternate source of energy to people. The team's idea was to encourage people to use non-conventional energy source.
