

 <p>Anand Mahindra Chairman M&M</p> <p>When you look at countries which are going to be early adopters of electric cars, affordability is the key issue given that battery costs are high at this stage. So EVs will be more affordable in affluent economies</p>	 <p>Nicolas Brusson Co-founder MaMoCar</p> <p>India is a huge opportunity. It is important that people are educated about the benefits of ride-sharing for long distance travel. There is optimal seat utilisation and the cost of the trip for the car owner also goes down</p>	 <p>Prakash Menon President NIFT</p> <p>We have been a global leader in skills and talent development. Once again, we want to revolutionise the landscape by introducing these pioneering programmes. We want to create a talent pool equipped with all skill sets</p>	 <p>R At Vishakh Chief executive officer IndiaFirst Life</p> <p>We started 2015-16 with an aim of 30 per cent growth in retail segment and achieved a 38 per cent rise. This year, we would like to continue our thrust on 30 per cent growth in the segment, if things remain the same</p>	<p>SMARTBYTES</p>
