6.H. Unit Transactions

- We value the Funds and determine a Unit Price on all days during which the financial markets are open. The Net Asset Value (NAV) is published in the relevant print media and is also updated on our website, on all Business Days in accordance with the Regulations.
- The Unit Price is computed based on whether we are purchasing (Appropriation Price) or selling (Expropriation Price) assets in order to meet the day to day transactions of Unit allocations and Unit redemptions.
- According to the prevailing guidelines of the Regulatory Authority, the NAV is calculated as follows –
 - *When Appropriation Price is applied:*
 Market value of investment held by the Fund
 Add: i. Expenses incurred in the purchase of the assets
 ii. Value of any current assets
 iii. Any accrued income net of Fund Management Charges
 Less: i. Value of any current liabilities and provisions
 - *When Expropriation Price is applied:*
 Market Value of investment held by the Fund
 Add: i. Value of any current assets

ii. Any accrued income net of Fund Management Charge

Less: i. Expenses incurred in the sale of assets

ii. Value of any current liabilities and provisions

- Our calculation of the Unit Price is final and binding except in cases where there has been a manifest error. The valuation of the assets of the Funds will be determined according to the applicable Regulations and our valuation norms in effect from time to time.
- We reserve the right to value less frequently than every day in the event of extraordinary circumstance where the value of assets may be too uncertain such as extreme volatility in the value of assets during which Surrenders and Switches would, in our opinion, be detrimental to the interests of the existing unit holders of the Fund, suspension of trading on stock exchange which provide a basis for valuation for a substantial portion of the assets of the Fund other than for ordinary holidays, natural calamities, strikes, riots, war or other similar events or force majeure circumstances that affect our normal functioning for as long as these circumstances persist or if so directed by the Regulator.

6.I. Time of receipt of payment and Unit Price

- The Unit Price applicable for the allocation of Units will depend on the time when the payments are received in the form of cash or local cheques or demand drafts or in the form of a written request for a Switch in.
- The Unit Price applicable for the redemption of Units will depend on the time of the receipt of a written request for Surrender, Partial Withdrawal or Switch out or the notification of the death of the Life Assured.

The table below, illustrates how the Unit Price is applied in case of both allocations and redemptions -

Timing of receipt of payment or request	Allocations	Redemptions
If received before 3:00 p.m. on a Business Day	The closing Unit Price of that day will apply to the transaction.	The closing Unit Price of that day will apply to the transaction.
If received after 3:00 p.m. on a Business Day	The closing Unit Price of the following Business Day will apply to the transaction.	The closing Unit Price of the following Business Day will apply to the transaction.
